

## WABO CLM COL GARD

### Description:

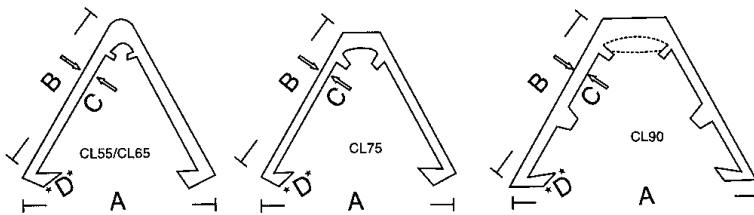

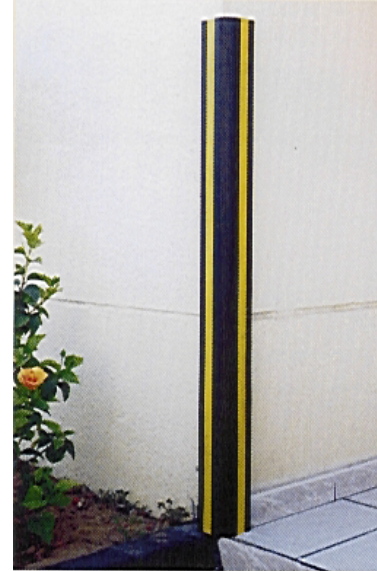

The WABO CLM COLGARD is designed to protect the edges of columns in structures.

### Materials:

The WABO CLM COLGARD is made of a high impact resistance extruded rubber profile. Standard colour is black. Yellow reflective cover strips are available on request.

### Range of sizes:

The gard is available with or without galvanised iron insert clips with various dimensions A, B, C and D.

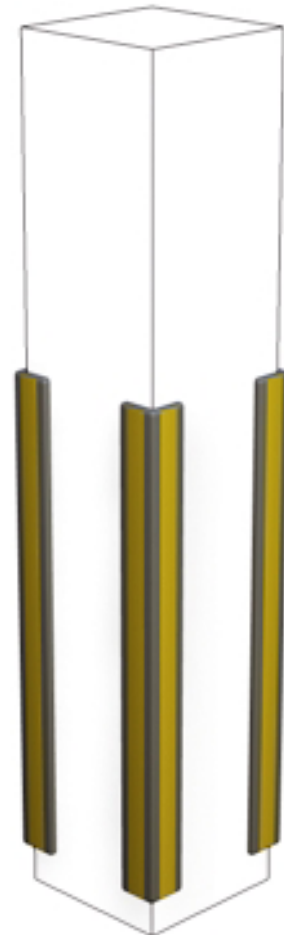

### Standard lengths:

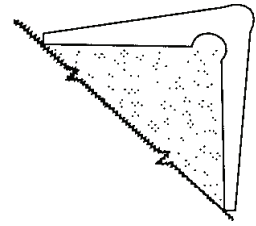

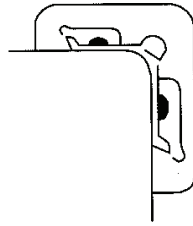

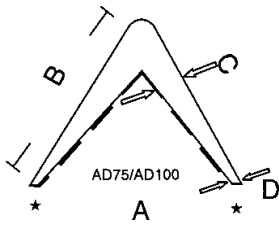

The standard lengths of the WABO CLM COLGARD are 1 meter and 1.2 meters.

Other sizes can be provided upon request.

### Installation:

The gards are mounted on the clip inserts which appropriately bolted onto the columns. Alternatively they can be fixed to the column surface using the appropriate MBT epoxy resin adhesive.

## CLM COL GARD

	Wing length (mm)	A	B	C	D
CLM 65	65	87	65	7	14
