

WABO K GARD

Description:

The WABO K GARD is specifically built to be used as a wheel stopper.

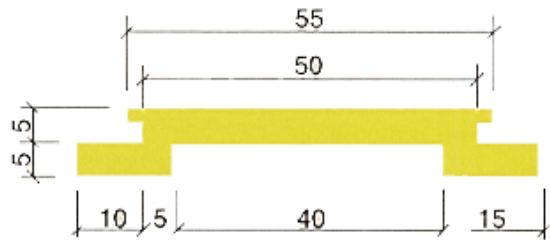

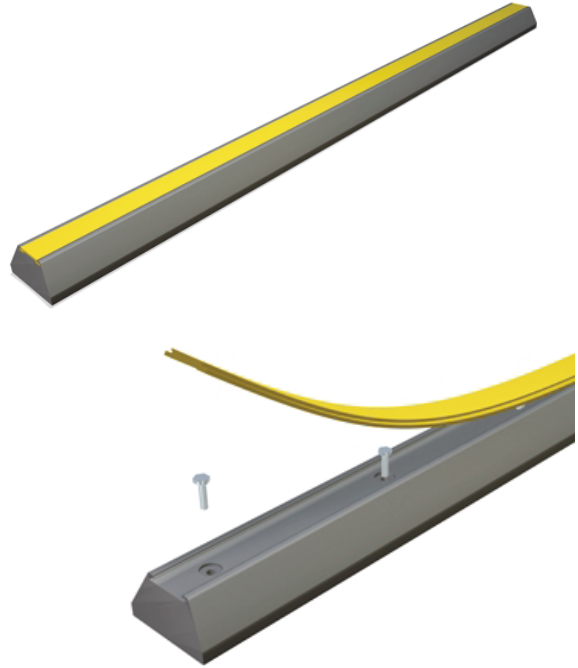

Features:

The **WABO K GARD** is supplied in a standard size 137.5mm x 100mm with a standard unit length of 2 meters.

It features a yellow reflective cover strip which gives an aesthetically pleasing and attractive looking finish. It also covers the fixing accessories giving it a smooth appearance.

Installation:

Fixing holes are drilled throughout the height of the Gard at the top side.
